

„LUCID DREAM” by the BUI Sisters,

FILM INFORMATION:

Original Title: Lucid Dream
Completion date: 02/ 2011
Running time: 00 h 09 mn 59 sec
Dialogs: polish

ABOUT THE MOVIE:

Lucid Dream is in a border line between a fiction and experimental movie.

The movie has few layers. Partially inspired by the phenomenon of “lucid dreams”. In a lucid dream, the dreamer can actively participate in and manipulate imaginary experiences in the dream environment but there is a thin line bordering the world of dream from the real world.

The second layer refers to the theory of “Many Worlds” created in 1956 by the physicist Hugh Everett's. According to the theory, every decision you make in your life causes a split in your reality, each time creating a new version of yourself in a parallel universe.
